

Authorization for Storage and Ongoing Credit Card Charges

Authorization

As a service to our patients we now have the ability to securely store your credit card(s) in our system. This will speed up your check-in process in the office and allow you to pay for your visit if you do not have your credit card with you. Your full credit card number(s) will never be viewable or accessible to staff. We will also never charge for any services that you do not authorize. Please note that MyChart (mychart.nyulmc.org), our online patient portal, can also store credit cards but it is maintained separately.

I authorize NYU Langone Medical Center to store my credit card information and bill the credit card on file for services I receive at NYULMC. I understand that NYULMC will only charge this credit card for amounts authorized by me and that upon your request a receipt will be provided for all charges processed in a practice location and/or I will be able to see my payment information on MyChart, our online patient portal. I will notify NYULMC in writing if I no longer want my credit card information maintained or automatically billed. I understand that if I do not want my credit card billed for this purpose, I am still responsible for these fees and will be billed accordingly.

Patient Name _____

Print Name (as it appears on credit card): _____

Last 4 digits of credit card #: _____

Signature of Cardholder: _____

Date: _____
